SKILLS

- C++, Rust, Python, Bash, JavaScripts, Django REST framework, React, Node, HTML, CSS, JSON
- Linux, Windows, Docker, CI/CD, Jenkins, Git, Gerrit

WORK EXPERIENCE

Jr. Embedded C/C++ Software Developer

Ottawa | Mar 2023 - Present

NOKIA

- Designed and implemented RFC-5424-based structured logging in OTOS system, enabling machine-readable log parsing that improved incident traceability by over 60% and reduced manual troubleshooting time by 25%.
- Initiated and facilitated the adoption of a Python type-hinting practice across the APT test team and APT developer team, resulting in a substantial performance and productivity boost. This proactive approach greatly enhanced code legibility and navigability within code editors, ultimately contributing to a more streamlined and efficient development workflow.

Software Engineer

Dhaka | Nov 2021 - Aug 2022

ENOSIS SOLUTIONS

- Increased 33% of revenue for the client by analyzing, implementing and testing payment and automated payment campaign system by collaborating with a team of 20 developers and QA engineers.
- Refactored user interfaces, and optimized REST APIs thus improving execution time for HIPAA Compliant Digital Forms resulting in 3% returning users and more than 700 positive reviews.
- Documented and demonstrated solutions by developing documentation, communicated in scrum and code review to get up to date with deadlines and completed assigned tasks within the provided time.

Software Developer Intern

Dhaka | Aug 2020 - Aug 2021

SAMMTECH

- Reduced memory and CPU usage by optimizing code. Fixed critical bugs, and measured performance.
- Analyzed project requirements, and added functionalities to multi-threaded C++ project (POS system).
- Added value, ideas, and the newest technologies to projects by seeking out and learning technologies.

Programming Trainer

Dhaka | Jan 2020 - Nov 2021

ACM LAB-2, DEPARTMENT OF CSE, AUST

- Raised 20% participation of students in programming contests and improved overall results by 5% by providing training to more than 80 students over 3 semesters on algorithms and data structures.

EDUCATION

Bachelor in Computer Science and Engineering

Dhaka | 2016-2021

AHSANULLAH UNIVERSITY OF SCIENCE AND TECHNOLOGY

- Obtained 3.20 out of 4.0 focusing on data structures, algorithms, applied math and computer science.

LEADERSHIP & AWARDS

- Mentored and guided hundreds of students to become successful in programming contests and software development careers.
- Judged, managed, and set problems in more than 6 inter AUST programming contests.
- Supervised and led the Dollarama team to ensure the assigned duties were completed.

PROGRAMMING CONTESTS

- Placed 23rd in the ICPC Dhaka Regional 2020 out of 110 teams.
- 2nd runner-up in the Red.Digital Digi-Thor Programming Contest out of 207 contestants.
- Champion in the Intra AUST Programming Contest Spring'19 out of 53 teams.
- Ranked 4th out of 100 teams in the EDU Inter-University Programming contest.

PROJECTS

- **Todo App:** Built a web application using NodeJS and React to manage personal todos and task reminder.
- **Cleaning Car:** Designed and built an embedded system to clean flat surface based on given instructions.
